The Department of Health is partnering with Molina Healthcare and the Washington Chapter of the American Academy of Pediatrics to implement this 4-year effort to assist clinicians and their care teams in improving the way they deliver care. Pediatric-TCPI will help providers implement the Patient Centered Medical Home Model, learn from successful practices, and prepare for value-based payment. Most importantly, this effort will help pediatric providers achieve better outcomes for their patients.

**Why join the initiative?**

**Value-Based Payment**
- Prepare for Healthier Washington’s move to value-based reimbursement
- Achieve your contracted goals and maximize payment

**Behavioral Health**
- Bridge to behavioral health services for your patients
- Receive help and training in identifying and supporting children with mild to moderate mental health needs

**Data**
- Get actionable, timely, and meaningful data to inform your practice
- Receive regular reports on key clinical metrics for your Molina patients – including well-child visits, immunization rates, asthma care, behavioral health management and emergency department visits

**Patient Centered Medical Home**
- Make meaningful progress toward NCQA Medical Home designation
- Get help improving quality and access
- Receive supports in clinic-based care coordination and behavioral health integration
- Increase your practice’s focus on long term health by employing evidence based, timely care for your patient population
- Renew job satisfaction through this proactive approach to supporting patient health

**Continuing Education**
- Learn from peer mentors
- Earn CME credit
- Participate in training modules and live trainings
